

USTFCCCA Approved Cross Country Course Form

As approved by the USTFCCCA membership the USTFCCCA cross country executive committee has begun a process of approving courses for cross country regional championships. The USTFCCCA will provide the NCAA with a list of certified courses for regional meets to serve as recommendations for host sites. Courses must be USTFCCCA approved sites to receive the USTFCCCA coaches recommendation.

USTFCCCA Approved Courses Must:

1. Meet NCAA Cross Country Course Requirements (See Rule 8 in the NCAA track and field / cross country rule book).
 2. Have an adequate meet hosting history within last three years.
 3. Receive approval, based on points #1 and #2, from USTFCCCA executive cross country committee regional representatives.
- Note: Courses can receive approval if the course in question has reasonable exceptions to #1 but has shown an ability to host regional meets. The courses will be listed as approved with their deficiencies noted.

General Course Information:

Host Institution (or sponsoring agency):

Location (City, State):
