PORTRAIT OF AN ATHLETE

By Brice Durbin, Sr. Foreword by Joe Paterno.

A TIMELESS CLASSIC FOR SUCCESS IN SPORT LIFE

For more than 40 years, Brice Durbin's heart-felt advice has influenced tens of thousands of young players and aspiring sport stars about the value of athletics and living a purposeful, honorable life.

His advice was originally given in a 1941 letter to his son, Brice Durbin, Jr., who was trying out for the high school basketball team. The father's inspirational message became the basis of a sports classic for the young that can be appreciated at any age.

Updated and repackaged with new artwork and poetry, *Portrait of an Athlete* has just been published by Leisure Press, a division of Human Kinetics Publishers, Inc. The new edition was prepared under the direction of the son whose endeavors prompted the father's seminal letter and the son's brother and sister. This edition is aimed at a wider audience: at young people interested in any sport — not just basketball — at their parents, and at girls as well as boys.

"You should aim at lofty principles that make for noble living. After all, in the field of sports, the physical body eventually gives way and a younger generation takes over. The athletes who have high ideals receive the greatest pleasure and acclaim long after their days of athletic performance. They possess the ability to see the real values of the game, and many make their greatest contributions when they are no longer able to compete."

Here's what a leading coach says:

Portrait of an Athlete contains the philosophy I believe in. Athletes who put the principles in this book to work in their lives and athletic careers will become the kind of athletes any coach — myself included — would be proud to work with." — *Joe Paterno*, coach at Penn State University and author of book's foreword.

AT THE RIM

A photographic first in the history of Women's Basketball

At the Rim presents a compelling portrait of the competition and camaraderie, the triumph and pain of women's collegiate basketball, a sport that continues to grow in popularity on campuses across the country. The book carries a powerful message about the rich and unparalleled experience players gain as teammates on the courts each year under the guidance of the very special people who are their coaches. For all its integrity and professionalism, the women's game has received too little recognition. It is a growing sport untainted by professional basketball.

Thomasson-Grant and the Professional Photography Division of Eastman Kodak announce the publication of *At the Rim*, a first in sports photography. The book features the work of 30 leading women photographers, making it a unique project — both in support of the athleticism of today's young players and the versatility of the professionals who record and distill the essence of the sport. Full-color images of players, coaches, and fans across the country capture the energy of the 1990-91 season.

At the Rim was developed in cooperation with the Women's Basketball Coaches Association (WBCA), which celebrates its tenth anniversary this year. Betty Jaynes, Executive Director of the WBCA, provided the foreword for the book. An introduction by Patsy Neal, a three-time AAU All-American who played with Wayland College, chronicles the history of women's basketball from its beginnings at Smith in 1892 to the NCAA Championship in 1991. Rounding out the book are full-page profiles of 14 past college players selected for their outstanding contributions both on and off the court.

192 pages, 9½" x 12", 183 full-color photographs. Hardcover, \$35. ISBN 0-934738-91-2. Category: Sports.
